Customer Reviews

Oh, the game, that captured me forever! When I started to play it, I wondered how did my friends manage to make over 3 million points, when I hardly earned 20000. Now I know how, thanks to this guide. It really worth buying.

Truly helpful stuff this. I really like tower defense games butI am far from expert. However, this guide

makes it look like I am apro.

I love subway surfer and addicted to it. I usually spend 2-3 hours on it daily. I love playing it but at higher level i got out due to the increasing speed. This was happening over and over. This guide taught me the tricks to overcome the problem and play the game at higher levels. I got able to earn more points and lead the score board in my friends.

This is a very fun game that I enjoy playing, but I wasn't performing as well as I wanted. I got this on my Kindle and happy I did! It's interactive and requires knowing the format of the game. This guided me down the right path and now I am the best player out of all of my friends!

WoW awesome guide, really helps to play Subway Surfers on a much higher level. One thing that I did not like about this game is the speed, but with this guide I've overcome that problem really easy.I definitely suggest buying this guide, If you've enjoyed playing Subway Surfers with this guide you will enjoy game even more.Beside game tactics this guide will teach you many other things, definitely try Subway Surfers on your Android as well.

I did not download this, I am not sure how my children were able to download this but we have uninstalled. Were charged but not approved by us as parents

These tips really helped me. This book make it all very easy and you can become a pro very quickly. Since it was very straightforward and easy to use I would recommend this book to anyone who want to master the game.

Fantastic! It really helped me out!
