Customer Reviews

Very good series of books for introductory paramedic training. Supplemented by the booksellers web site with interactive course lessons, powerpoint slides and quizzes and tests on the chapters in the seven volumes

books are absolutely beautiful! I love hard backed books.

Was satisfied, except had to buy the online code separately for mybradylab. At the school books came with it.

Shipped quickly and correct books.. However one volume was printed upside down.

The standard for Paramedic education. What more can be said?

Everything was in excellent order. Only downside was this package didn't come with the access code and I needed it. But not a bad package for the price.

Great set in perfect condition.

THESE WERE REQUIRED BY HIS SCHOOL FOR PARAMEDIC CLASS. HE PASSED WITH FLYING COLORS AND IS NOW A PARAMEDIC. HE KEPT THIS FOR REFERENCE IN THE FUTURE.
