# Monster Hunter: Flash Hunter, Vol. 1

## Synopsis

It is an age when monsters rule the world, soaring through the sky, treading the earth and filling the seas. Humanity survives on the fringes, relying on a special kind of hero to defend the people from danger. The Monster Hunters! Hunting giant man-eating beasts is no job for the weak-hearted, but along with courage, it takes skill and experience to be a good Hunter. It also takes good teamwork. Raiga and his comrades are experts now, but when they started down the path of the Monster Hunter, they lacked these qualities. When they head off to confront the dragon-like Queropeco, they quickly learn that this flaw could cost them dearly.

## Book Information

## Customer Reviews

Monster Hunter: Flash Hunter is a manga serialization of the popular game and novels by Keiichi Hikami. The story centrally features a somewhat dimwitted but very exuberant young man who wants to become a master monster hunter. He'll fight all kinds of fearsome beasts, each with their own unique strengths and weaknesses, as he works to create his own team. Monster Hunter may be a bit of a 'monster of the week' type of manga but that shouldn't be too surprising since it is based upon a battle game. This first volume delves into the origin story of how Raiga got his team. Story: Young Raiga idolized a hunter from his village and decided he would also protect people from monsters when he grew up. Several years later, he is still a bit of a rookie but finds a great team to join and from whom to learn the skills of the trade. When they break up right after he

joins, however, he finds himself paired with a testy gunner hunter named Keres and journeying to a far off land in order to create a new team. But the two young men have unknown skills and no one is willing to take them on as a team. When chance pairs them up with a female hunter with a poor reputation of getting her teammates injured, the beginning of their great team is born: Raiga's boldness, Keres' strategy, and Torche's knowledge. The artwork is very busy and at times can be hard to follow. Each panel is crowded from end to end, which can be a bit disconcerting to figure out the who is doing what. But this is an action/battle series so readers can pretty much get the gist of what's going on; certainly, the intensity of the illustrations lend themselves to depicting the size and might of the monsters. Raiga, Keres, and Torche make a dysfunctional but highly effective team by the end of this first volume.
