50 More Stem Labs - Science Experiments For Kids (50 Stem Labs) (Volume 2)

Synopsis

This is my 2nd collection of 50 STEM (Science, Technology, Engineering, & Mathematics) science experiments for kids. Recommended for grades 3 and up. Each one has a snappy title, a brief description of the task required, the rules, and grading rubrics. These are very adjustable for your classroom, home, or homeschool needs. They support learning in these technical fields in a fun, hands-on, and sometimes competitive way. Learn by doing, measuring, and designing, and then reflect upon it. Labs are tagged with categories so you can search for other similar labs. Types of labs included are: paper airplanes, bridge building, roller coasters, weight lifting projects, cars, crash tests, egg tests, and many, many more!

Book Information

Series: 50 Stem Labs

Paperback: 62 pages

Publisher: CreateSpace Independent Publishing Platform; first edition edition (October 17, 2014)

Language: English

ISBN-10: 1502885026

Average Customer Review: 4.1 out of 5 starsÂ See all reviewsÂ (7 customer reviews)

Best Sellers Rank: #214,307 in Books (See Top 100 in Books) #82 inÂ Books > Science & Math > Experiments, Instruments & Measurement > Experiments & Projects

Customer Reviews

Great book. Very organized. I look forward to using the suggested labs for my students.

Another great STEM book by Andrew Frinkle..very useful for customizing my classroom.

Love

Great resource for teachers! Easy and simple activities for your students!

Good resource.

Great for teacher's looking for STEM ideas in elementary

JUST OK
