A TOTAL WASTE OF MONEY. THERE ARE NO PICTURES FOR IDEAS AND THERE ARE BASICALLY NO HOW TO'S FOR THE DO IT YOURSELFER. I WISH I COULD GET MY MONEY BACK. I ACTUALLY TOSSSED THE BOOK BECAUSE IT WONT BE USEFUL IN ANYWAY. I SHOULD HAVE GONE TO A BOOK STORE. LESSON LEARNED.

I read a review of this book at woodworker's gazette and it was really positive. So I ordered the book and it arrived last week. This book is cursory in its treatment of the topic and has no answers to any of the questions I was interested in. For example there is no discussion of stone tiles, heating systems for tiles, width of groutlines. This book is embarrassing. I have a book from Home-Depot on tiling that is superior to this one in simple answers to simple questions. My advice - avoid this book and look elsewhere for your info.
